PROFILE

Detail-oriented IT Support Engineer with 2+ years of hands-on experience in troubleshooting, hardware and software support, networking, and IT administration. Known for accuracy, confidentiality, teamwork, and calm problem-solving in high-security, fast-paced environments — and for keeping users productive with minimal downtime.

EXPERIENCE

IT Desktop Support Executive

YLG India | Dec 2025 – Present

- Delivered end-user support to 100+ users, resolving hardware, software, and network issues with fast resolution and clear escalation.
- Installed, configured, and maintained desktops, peripherals, and user accounts to keep daily IT operations running smoothly.
- Configured, tested, and maintained POS systems and related hardware/software, ensuring seamless transactions and minimal downtime.
- Managed system records, backups, and documentation, improving data accessibility and reducing risk of data loss.
- Ensured compliance with cybersecurity and data protection policies and produced regular reports for management.

IT Support Engineer

Headquarters Naval Technical Group | Feb 2024 – Jul 2025 (Contractual)

- Provided prompt hardware and software support to 30+ users, troubleshooting IT/network problems and escalating unresolved issues to senior team members.
- Managed digital and physical records with precise filing, regular backups, and easy document retrieval.
- Prepared status, activity, and maintenance reports; streamlined record-keeping to improve documentation efficiency.
- Maintained data protection and cyber security compliance in a sensitive operational environment.
